BACHELOR OF SCIENCE
MINOR
MASTER OF SCIENCE

PROGRAM DESCRIPTION

Criminal Justice encompasses multidisciplinary examinations of crime, crime control, the justice process and justice institutions. The discipline addresses definitions, causation, prevention, investigation, legal process, treatment, rehabilitation, and research relating to crime and justice as well as the institutions of the justice system and their administration.

The comprehensive program at CSUS covers every aspect of the field. Courses are offered which span the entire system of justice administration in both public and private sectors.

The Division of Criminal Justice aims to:

1. Identify and increase understanding of major social issues related to crime, criminals, prevention and control, and victims.
2. Develop specific skills and knowledge relating to administration of justice institutions.
3. Build the critical thinking skills of those enrolled in the program so that graduates are competent in identifying and assessing the various alternative solutions to the problems associated with the control and prevention of crime and delinquency.
4. Enable students to understand the research which is available to policy makers concerned with issues of crime, delinquency, and victimology.

Many graduates find positions with various federal, state, and local criminal justice agencies. Others have pursued advanced study in criminology and law. Employment opportunities for Criminal Justice majors have remained strong for the past decade both with government agencies and in private security. Future demand appears assured.

GRADUATE PROGRAM

The Master of Science program in Criminal Justice is designed to provide broad knowledge and understanding of the field of criminal justice, law enforcement, legal processes, and rehabilitation of offenders. It also provides an extensive academic foundation for a growing variety of professional opportunities and facilitates professional development in preparation for positions of increasing responsibility. Curriculum objectives are based on the philosophy that the function of the professional criminal justice practitioner and educator is to aid the orderly development of society, to contribute significantly to the improvement of the quality of services, and to advance the criminal justice system. Students who anticipate pursuing graduate studies should prepare themselves for work on this level by selecting undergraduate courses which provide competence in the following areas: statistical analysis, behavioral science methodology, independent library research, and the writing of research papers.

The University's location in the state capital provides direct access to many local, federal, and state agencies through internship and fieldwork opportunities. All graduate students should consult the Criminal Justice Graduate Coordinator when planning their program of courses for each upcoming semester.

All work toward the degree must be completed within a seven-year period. The general university requirements for graduate degrees are explained in the "Graduate Studies" section of the CSUS Catalog.

For more information on this graduate program, contact the Criminal Justice Division, 6000 J Street, Sacramento, CA 95819, (916) 278-6487.

To obtain a CSUS application booklet, contact the Graduate Center, 6000 J Street, Sacramento, CA 95819-6112, (916) 278-6470.

Admission Requirements

Admission as a classified graduate student in Criminal Justice requires:

- a baccalaureate degree;
- a minimum 2.8 GPA in the last 60 units attempted and a 3.0 GPA in the major field;
- a letter outlining in some detail the applicant's interests, goals, and expectations in pursuing the MS in Criminal Justice; and
- three letters of recommendation from individuals who can evaluate the applicant's potential for graduate study.

In addition, applicants are expected to have an undergraduate major in Criminal Justice or its equivalent. Whatever the applicant's undergraduate major, however, it is essential that each student have adequate preparation for graduate study. For this reason, some applicants (regardless of their undergraduate program) may be asked to remove deficiencies in their education by taking courses from the undergraduate curriculum before being admitted as a classified graduate student. In such cases, conditionally classified graduate status may be granted subject to completion of these courses with grade "B" or better. The number of units required to remove deficiencies will total no more than 15 and these must be taken in addition to the 30 units required for the MS. Any deficiencies will be noted on a written response to the admission application.

Admission Procedures

Applications are accepted as long as space for new students is available. However, students are strongly urged to apply by April 1 for the following Fall or October 1 for the following Spring in order to allow time for admission before the Computer Access Student Phone Entry Registration (CASPER). All prospective graduate students, including CSUS graduates, must file the following with the Graduate Center:

- an application for admission and a supplemental application for graduate admission (Forms A and B in the CSU application booklet); and

- two sets of official transcripts from all colleges and universities attended, other than CSUS.

At the same time, each prospective graduate student must forward to the Graduate Coordinator in the Division of Criminal Justice the following:

- a letter outlining in some detail the applicant's interests, goals, and expectations in pursuing the MS in Criminal Justice; and
- three letters of recommendation from individuals who can evaluate the applicant's potential for graduate study.

Approximately six weeks after receipt of all items listed above, a decision regarding admission will be mailed to the applicant.

Advancement to Candidacy

Each student must file an application for Advancement to Candidacy for the master's degree indicating the proposed program of graduate study. This procedure should begin as soon as the classified graduate student has:

- removed any deficiencies in Admissions Requirements;
- passed the Writing Proficiency Examination; and
- completed at least 6 units in the graduate program with a minimum 3.0 GPA.

Students may not enroll in CRJ 500 before they are advanced to candidacy.

Advancement to Candidacy forms are available in the Graduate Center. The student fills out the form after planning a degree program in consultation with the Criminal Justice Graduate Coordinator. The completed form should then be returned to the Graduate Center for approval.

Degree Requirements

The Master of Science in Criminal Justice requires completion of 30 units of coursework with a minimum 3.0 GPA. An outline of degree requirements follows.
